## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: "21a". Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

2. The disclosure is objected to because of the following informalities: on page 1, line 20 "wed" is not understood.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 5 "the railing blocking" has no antecedent basis and it appears

Art Unit: 3765

should read --the railing block--. In claim 2, line 7 "the air-passage hole" and line 8 "the large opening", each, has no antecedent basis. In claim 3, line 2 "the rain-blocking plates" and line 6 "the large opening", each, has no antecedent basis. Claim 3 is confusing as "via air hole" on lines 4,5 is awkward language. Claim 4 is confusing as to whether the "plurality of adhesives" is the same as or is in addition to the "plurality of adhesive cloth" set forth in section c of claim 1.

***Allowable Subject Matter***

5. Claims 1-4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the ventilation arrangements of British patent to Liu, Kamata, Mirage, Giancarlo et al., Adams, Sr., Muskowitz, Tanaka, European patent to Nava and Shida and the helmet neck covers of Cleveland, German publication to Voss et al., Arai, Perlanger, Pershing et al. and Bushman.
